LETS.EXCEL SCHOLARSHIP

AN INNOVATIVE APPROACH TO DRIVING A CHANGE IN THE STANDARD NARRATIVE OF EDUCATION

Many of us grow up with limited resources & limited options. We have been conditioned to believe that education only comes in one form, that success only has one aesthetic & "making it" only has one road. We want to decolonize & challenge the social structure that has been imposed in our communities & has influenced an oppressive way of thinking & supporting those in need.
