The 2020 Census is coming

**As a parent, resource family,
or youth, here is what you need to know:**

Starting in March 2020, every household in the U.S. will receive an invitation requesting that you complete a census survey online, by mail, or phone.

Your participation is essential.

The census will collect basic information about all people living in your household, including all children. When completing the census, you should:

- ✓ Count everyone who is living in your household including all foster children.
- ✓ Include babies, even if they are still in the hospital.

The census counts everyone where they live and sleep most of the time, even if the living arrangement is temporary. Your participation is vital to L.A. County, as census numbers determine how more than \$675 billion federal dollars get spent on programs such as healthcare and education.
